

### NOTICE

We are committed to keeping your expenses for sleep evaluation and treatment to the lowest possible costs while maintaining high quality.

Currently, the healthcare system is in chaos with patients experiencing higher premiums for insurance and higher deductibles.

Our office can help you find the best prices for diagnostic services and treatment such as home sleep testing, and CPAP and BiPAP devices.

Before you come in for your appointment, please check your insurance coverage, particularly your **deductible and if Sweet Dreams Sleep Clinic (Dr Brittany Meyer and Abbie Fulk, APRN) are in network**. This information is essential for our office and professional providers to help you plan what is most cost effective for you. There is a cash-pay option to be seen within our clinic if not in network with insurance.

Sincerely,

Brittany Meyer, M.D.  
Abbie Fulk, APRN
